THIS IS THE BEST WAY TO CLEAN A WINDOW SHADE

THERE is only one really satisfactory way to clean a window shade, and that is by scrubbing it, with soap, brush and hot water.

If your shades are du Pont TONTINE, and get soiled, just lay them on a table and scrub them. And out they come, looking clean and bright, good as new again.

Drop in and see the complete line of plain, corded and figured TONTINE shades, in a wide variety of colors.

5 Blows calls department for slight fire in Precincts 1, 2, 3

3 Blows with 5 seconds intervals at 7.30 A. M. means no morning session of any school

3 Blows at 12.15 P M with 5 seconds intervals between blows means no afternoon session of any school

9-9—with 5 second intervals Boy Scouts call.

Note—Where possible, a box alarm is preferable, as it notifies firemen of the location of fire. Persons pulling in an alarm should always wait at box until the arrival of firemen so as to direct them to its location

In giving an alarm by telephone be sure to give exact location of fire, street and number, whether serious or slight, and do not pull in a box alarm after engine house has been called, as this is sure to cause confusion

Drivers must in all cases after an alarm by telephone press box nearest to fire when there is the least possible danger

Officers will see that a roll call is held after each alarm and report same within 4 days to the chief of the fire department
